HOW IT WORKS

With just one call, we can provide you with access to a team of medical experts for real-time consultations and treatment.

REQUEST A CONSULTATION

Access 24/7!

CONSULT A MEDICAL PROFESSIONAL

Once we assess your medical issue and symptoms you will be placed into a live call with medical professionals.

RECEIVE A TREATMENT PLAN

If a prescription is needed, it will be sent directly to your pharmacy of choice, Doctors can order lab work or diagnostic imaging if needed.

PRIVATE AND SECURE

Your privacy is our top priority and we take it seriously!

SKIP THE EMERGENCY ROOM!

IMAGINE BEING SEEN BY A DOCTOR FROM THE COMFORT OF YOUR OWN HOME

When you are unwell, the last thing you want to do is leave the comfort of your home to wait long hours in an emergency room.

ANYWHERE IN THE WORLD, ANYTIME

Whether it's in middle of the night or you're many miles from home, access is available.

NO MORE GUESSWORK

Emergency Room visits can cost thousands of dollars. Tele Medicine can provide you medical advice and access to on call nurses and physicians as well as referrals to a physician near you if needed.
